### DEMOCRACY

A Democracy is Founded Upon Equal Rights, Equal Duties and Equal Responsibilities For All Citizens.

### ONE THOUSAND. NEGROES CALLED FOR NAVY

According to press hispatches, Provost Marshal, General Crowder has called for the thursand Colored men.for the U. S. Navy. This is a step in the right direction and it will meet the

Navy, Justice as up in the right environmental approval of the Universal People everywhere.

The Nerry is a soldier in every sense of the word. He is one who can be traised at all times to give a good account of himself. We are willing to accept this reognition accorded the Negro in this brainch of service to mean that the high officials at Wight-

in this branch of service to mean that the high officials at Washington, are beginning to see that it is like one working sgainal himself, to entitude densing-the Negro the opportunity to measure up to his fall mathood in every department of this Government. Surely our mee is worthy observer confidence that is imposed upon any people or nation at this time. We have never been guilty of giving away, or selling any of the military secrets of this Nation to a foreign fee. We can boast of the fact that none of our race have cannouffaced to get into these trusted positions that we might render service to a foreign foe.

We have always been true when tried. These discriminations forced upon us are not the just rewards for out loyalty. The Negro has marined and munipilated every gun this Nation has put on the field or land. There is no reason why he is ineasible of handling the same on see. In helligence and mental teacher has always measured up to or surpassed the competitors of other vaces: Why Keep Him back?

We see evidences every day of the need of more true

other races. Why Keep riim back:

We see givinence very day of the need of more true
Americans. We have a suspicion that too many of our ships are
being accidently "rammed," or silter an "explosion" from unknown, cause. We dare say that not a Negro was holding a responsible justifion when these things happen. We should think dsy of the need of more true

sponsorie Psinger over these things. Yes, Mr. Danjels, call for us, put us in responsible posi-tions in your Navy. Do not b deceived. We will make just as efficient gunners as any other men.

### THE LIBERTY LOAN DRIVE

THE LIBERTY LOAN DRIVE

Saturday, bet. 19, wiffbe the last day in which you will have the opportunity to subscribe for the Fourth Liberty Loan. We are confident that not a single Negro who is able will allow that day to pass without doing his full duty.

We are proud of the record our boys are making over a cros, the sea. Now, let us make them feel proud of what we are doing at home to back them up.

The work, and the subscriptions by these Negroes in this district will be reviewed by a representative of The Argus through these columns next week. We expect to tell the world what you did in this mate important mive of this Nation. If you have not bought a bond, buy one today. Put your Liberty Flag in yourwindow, and your, liberty Button on your cast. If you know of any one whom you think should flay, direct, them to one of the District Workers.

\*\*Ramember\*, there will be no excuse for any one who is able and has note bond after Saturday. Bewise.

### PEACE NEGOTIATIONS

A successful military victory is the best assurance of permanent peace. Negotiations and exchange of peace notes, between our Allies and the Central Powers will undoubtedly cause relax of the zeal and fighting spirit of our soldiers. The Popule at home are beginning to relax their efforts in war work. There are many technical points to be considered when a Peace Conference is called. Who knows what the Imperial Government of Germany will do?

### A MERE MATTER OF JUSTICE

As a mere matter of simple justice the Negro votars of St. Louis, are asking for Negro representation in the polling places where the Negroes have large majorities. Committeemen whose suity it is to recommend, these appointments, give no particular reason for nor wanting Colored men to serve as judges and elects of the election, but the voters see a sinister meaning in the president follium on the part of the Committeemen to grant the Negro the natural right which belongs to him.
